

Dental Professionals Conference  
**VIRTUAL** Conference 2020

## Steve Taylor

Clin Dent Tech(UCLan) DipPS(Implantology)

**Brief Bio:** Steve gained his City and Guilds qualification in 1978, a Diploma in Technical Implantology from MMU & graduated as a Clinical Dental Technician from UCLan in 2013. He lectures throughout the UK on a range of subjects such as occlusion, smile design, Implantology BioHPP and tooth anatomy waxing courses for dentists and technicians. He was awarded Contributor of the Year in 2010 by the Dental Laboratory Journal. He is a certified PTC trainer. He runs a private laboratory, Taylor Dental Technology Centre, in Leyland Lancashire, which he opened in 1989, he runs his denture clinic from the same premises. He won The National Training Award with his previous laboratory business in Chorley.

He is Chairman and was awarded Fellowship of the British Institute of Dental and Surgical Technologist (BIDST), current President of British Association of Clinical Dental Technicians, and a Non-exec member of the board of the Dental laboratory Association. He is a Full member of the British Academy of Aesthetic Dentistry (BAAD) and a member of the ADI.

**Lecture title:** Full Arch immediate loading from the technician's perspective.

**Abstract:** The lecture will show the planning and design of the conversion bridge prior to the implant placement, along with surgical guide construction. It will then cover tried and tested procedures to show how the conversion bridge is transformed to become a provisional screw retained implant bridge. Techniques and the material choice will be discussed, along with tips on corrections should problems be encountered on the day. This presentation will show how these technologies can be applied to the standard orthodontic processes and to new applications in the field of orthodontic skeletal anchorage.

**GDC development Outcome: C & D**
